

Earthcycle™ Ultra White Meat & Seafood Trays

RECYCLABLE | RENEWABLE | FOOD GRADE COMPLIANT | MADE IN CANADA

Earthcycle™ ultra white protein trays offer a step above in performance and environmental credibility! The trays, produced at higher manufacturing weights, offer additional strength and longer shelf life. The bright white color adds shelf appeal to the protein on display. The trays are widely recyclable in the paper stream. Proudly manufactured in Canada at GMP Gold Standard production facilities, the packaging complies with Health Canada and FDA guidelines for protein packaging.

From in-store testing and usage of Earthcycle trays, retailers have found that the Earthcycle trays perform best under the following conditions:

- Packaging for all types of meats and seafood
- Meat packaging performance is optimized for high traffic locations
- Shelf performance optimized when used with a soaker pad
- When packaging seafood, trays can last for up to 5 days with a soaker pad
- Use of an environmental label/sticker and/or shelf talker to call out that the trays are widely recyclable in the waste paper stream
