

PET Trays

Eastern Availability

RECYCLABLE | SUSTAINABLE | DURABLE | MADE IN NORTH AMERICA

With an increasing demand for sustainable packaging options, CKF Inc. offers a wide range of PET and rPET meat and produce trays. This is a great sustainable alternative for your meat and produce packaging.

CKF Inc.'s PET trays are strong and durable meaning they can hold more weight and are extremely resistant to cracking, tearing, or shattering. These trays provide better nesting properties than other substrates, offering superior barrier performance.

PET protects. PET's essential function is to protect its contents, hold product integrity meaning less spoilage, waste, and clean up. Our trays can be customized in design to meet your unique requirements to help your product stand out on the shelf, and increase brand awareness.

From an environmental standpoint, all of our PET trays are curb side blue bin recyclable. This allows PET trays to go back into the recycle stream and help save billions of pound of waste.

No. 2 PET Tray Black
21.3 X 15.1 X 2.9 CM
